

```
// Menu burger mobile

const menuToggle = document.querySelector('.menu-toggle');
const nav = document.querySelector('.nav');

menuToggle.addEventListener('click', () => {
  nav.classList.toggle('active');
});

// Fermer menu quand on clique sur un lien
document.querySelectorAll('.nav a').forEach(link => {
  link.addEventListener('click', () => {
    nav.classList.remove('active');
  });
});
```
